

ARREST OF SUPT. P. C. ELDREDGE LIVELY STREET CROSSING FIGHT

Company Puts on a Big Gang of Men and Runs a Track Across Prospect Avenue.

ALDERMEN HOLD A COUNCIL OF WAR

Proceedings Were Simply Another Phase of the Hold-Up—Railroad Company Disgusted, Threatens to Abandon All Improvements.

The move in this fight between the common council and the St. Paul railway company in regard to their building side tracks across Prospect avenue to their proposed freight station came this morning and resulted in the arrest of Supt. Eldredge of the Mineral Point division and of Roadmaster A. N. Anderson, and the stoppage of track laying across that street.

The St. Paul company have been anxious to complete their freight house on north Main street and this morning about fifty laborers under the direction of Roadmaster Anderson, started in to run a spur track across Prospect avenue just west of the present track which is already in place.

Was To Be House Track
The new track was to be the house track and was to run close to the side of the station on the east side of the freight house on Main street. When in place the new track would have been about three inches lower than the track already in place and about ten inches above the grade recommended for the street by City Engineer Kerch.

The laborers has the cut across the street about half finished and one section of track on the north side up to the street line completed, when Alderman Hutchinson found out what was being done and saw that unless he made some quick moves, the road would succeed in getting their track in place despite his opposition to it in the council.

Council of War Held
The other aldermen of the city were quickly called together and a council of war held. It was decided that the railroad company must not be allowed to put in the track as it would ruin the street and overrun the august commands of the big six. City Attorney Burpee was instructed to draw a complaint against them at once under section two of ordinance No. 76, charging the railroad company with violating this section of the ordinance by cutting down the grade of Prospect avenue without first gaining the consent of the council.

The complaint was signed by Officer John Brown and a warrant for the arrest of P. C. Eldredge, A. N. Anderson and all others connected with the work was issued by Judge Field of the municipal court. The warrant was given to Sheriff Maltress to serve.

Some Trouble Expected
Evidently some trouble was expected as the entire police force and Undersheriff Cochrane and Deputy Sheriff Ray accompanied him to the scene of the trouble.

Mayor Richardson and a majority of the aldermen including Hutchinson, Gilkey, Judd, McLean and Kothman were also on hand and wanted the entire bunch arrested. Sheriff Maltress read his warrant to Supt. Eldredge and Roadmaster Anderson who ordered the workmen to quit and accompanied the officers to court where after the warrant charging them with violating the ordinance was read a motion was made by A. A. Jackson, attorney for the road that the matter be adjourned without pleadings until two o'clock.

Track Nearly Completed
When the warrant was served the railroad company had their track practically completed. The rails were laid across the street and spiked to the ties. Fifteen minutes more would have seen the cut filled up and the road leveled off so that there would have been no more of an obstruction in the street than where the track already is.

Some time ago City Engineer Kerch prepared a grade of Prospect avenue and recommended it to the council. This grade would lower the street about eighteen inches below its present level, which Alderman Hutchinson claims is about nine inches below the established grade. The railroad company did not attempt to go down to the grade recommended by Engineer Kerch, but laid the track ten inches above what he recommended so that the street would have to be lowered but a very little to be on a level with the sidewalks.

Means Main Street Tracks
If they are forced by legal proceedings to take up their track, they will put the two on the Main street side of the station where they can cross the street at the established grade by making a slight fill across it.

Another Hold Up Case
The proceedings this morning is simply another case of hold up on the part of the aldermen interested without any consideration of the property owners to be affected by the sidetracks on the Main street side of the station.

It is almost certain that the people of Janesville for a year or two to come will have the pleasure of seeing lumber piles, lime sheds, piles of ties and sewer pipe, a freight depot and a switch yard between Jackson and Academy streets. Supt. P. C. Eldredge is the authority for the statement that "it is hardly probable that he company will build a new passenger station before next year and possibly not for two years."

Adjourned Until Tuesday
The case of the city of Janesville

against P. C. Eldredge, A. N. Anderson and others was called in the municipal court this afternoon and adjourned without pleadings until Tuesday, July 2nd at 10 o'clock a. m. The prisoners were left in the custody of the sheriff. Street Commissioner Fredericks had a force of men busily engaged this afternoon in shoveling the dirt back into the trench covering the rails and ties which had been laid by the railroad company.

MINERS ATTACK U. S. MARSHALS

A Formidable Mob at Matewan, W. Va., Drive Back Officers Who Have Injunctions.

Matewan, W. Va., June 25.—A formidable mob of striking coal miners showed their angry condemnation this morning by firing upon a posse of United States deputy marshals and forcing them to flee from the fields.

None of the marshals were wounded, but not a member of the posse dared venture again upon the scene of the danger. The mission of the federal agents here was to serve upon the strikers copies of Judge Jackson's sweeping injunction issued a few days ago.

The routed posse hastened to Huntington and its members are laying plans to do their duty without incurring risk to life and limb.

THREE BOYS DROWN WHILE IN BATHING

Swept into Deep Water Below a Dam at Grand Rapids, Wis.—The Bodies Are Recovered.

Grand Rapids, Wis., June 25.—Three small boys, all under eleven years of age, were drowned below the dam of the Port Edwards Paper company yesterday afternoon. They were: Sidney Larson, Arthur Calm, Clarence Reuce.

The boys went in for a swim, and for a time managed to keep in the shallow water near the shore. One, however, more venturesome than the others, dared his companions to go out a little further, into the swift current.

The boys did so and all three were swept off of their feet and into the deep water below. People along the shore saw the accident and every effort was made to recover the bodies in time to resuscitate the lads.

The bodies were found within an hour after the accident, but by that time all chance of saving the boys' lives was gone.

NUMBER KILLED NOT OVER SIXTY

Good News from Flooded District in West Virginia.

LOSS IS \$1,000,000

Thousands of Miners Are Homeless and Suffering for Want of Food.

ACTIVE RELIEF WORK

Ennis, W. Va., June 25.—A courier arrived here from Keystone after a hard trip across the mountains this morning. He says from information obtainable when he left the loss of life from the flood will not reach one hundred and will probably not exceed sixty. The latest estimates made yesterday were much exaggerated.

Bluefield, W. Va., June 25.—Good news in comparison with what was feared has come from the devastated Elk Horn Valley mining district. Instead of an increasing list of the dead, it is now thought the loss of life will not exceed sixty or perhaps seventy-five, while the property loss is estimated at \$500,000 to the Norfolk and Western railroad and perhaps as much more to the lumber and mining interests. The town of Keystone, which was thought to have been destroyed, suffered severely, but only a few dozen houses in the river bottom were carried away, while the great majority of the people reached safety. Governor White estimates the loss of life at perhaps 1,000, and at once began to take vigorous relief measures. He went from Charlotte to Huntington to see that tents and provisions were forwarded rapidly to the sufferers, and he ordered his private secretary, General E. L. Boggs, and assistant adjutant, General A. S. Huston, to go to the district to examine conditions there. The railroad company is also doing all that it can. Three thousand laborers are either already at work on the tracks or are being rushed forward from all parts of the line. Though they have thus far gone only a mile or two west of Ennis, which is as far as the trains can get from here, they hope to restore communication in two days if there are no further storms. The telegraph company expects to have a line to Vivian by tonight.

Though the loss of life is much less than indicated by the first reports, which put the figures at from 400 to 600, the horror is great and the sufferings of the survivors are intense. Between Ennis and Vivian the people are still staying on the hillsides for safety and taking good care to have means of escape when they venture into the little towns, for the skies are dark and lowering and a repetition of cloudburst is feared. Two-thirds of the miners are homeless. At Ennis the depot and postoffice were washed completely away and miles of track were torn up. Of the ten miles of track between Ennis and Vivian it is stated that there is not 100 yards remaining in one place, and in some places embankments ten feet high will have to be completely restored. In this district at least twenty collieries and coke manufacturing plants have been damaged in amounts ranging from \$4,000 to \$25,000. The Big Four mines are flooded and the delivery tracks are gone. The loss of life cannot be learned. Only one man has got from there to a point of communication, and he arrived more dead than alive, having swum the river three times. The number of houses carried away bodily is estimated at 300; number of miles of railroad track destroyed, 30; bridges swept away, 13; number of towns injured severely, 20; number of people homeless, 5,000; laborers at work repairing railroads, 3,000.

Ashland, Ky., June 25.—It is reported that sixteen lives were lost in the cloudburst Saturday night on the tug Guyandot and the bog on the Sandy River.

GRANITE TRUST IN THE BADGER STATE
Wisconsin and Northwestern Quarries Said to Have Agreed to Enter a Combine.

Milwaukee, Wis., June 25.—A granite trust to control all of the quarries of the Northwest is forming. A number of Wisconsin quarries, it is said, have already been purchased or have given options to the proposed trust. The work has been going on for over a month.

W. B. Baker of 910 Temple building, Chicago, is said to be the principal promoter of the new trust. Mr. Baker was formerly cashier of the national bank at Waupan.

Quarries are reported to have been purchased at Monticello, Berlin, Devil's Lake and Waukegan. These are the four big producing points in the state.

They found the place where he had made a desperate fight with wolves, there being seven dead wolves near by, but nothing was found of Hockstock except a few bones, a few rags of clothing, his watch and \$65 in his pocketbook.

Havana, June 25.—The republican and national parties have signified their approval of the Platt amendment. The national party takes this action with the understanding that it will later use all possible legal means to affect the repeal of the amendment. NEGLECT OF OAK LAWN HOSPITAL STEPS TO REVIVE INTEREST IN IT

The Beautiful Place Has Been Going to Ruin and Decay—Meeting of Those Interested Called for Friday Afternoon—List of Stockholders.

The calling of a meeting of the Oak Lawn hospital association by President John Thoroughgood brings to mind the time when the city pointed with pride to Oak Lawn hospital. The great good accomplished through its agency entitles the hospital to a high position in the grateful memory of the city.

But while Oak Lawn hospital is only a memory to the city, it should be something more than a "has been" to the members of the association which still owns the great roomy building and its splendid grounds which surround it. For some years the association has not been an active one and but little interest seems to have been taken. The house and the acre of ground which goes with it has been rented for four dollars a month and the ground is certainly worth more than that for garden purposes to say nothing of the building. It is a shame that valuable property should be so neglected.

There seems to have been no remedy for this neglect which arose out of indifference. Effort after ef-

NASH WILL HEAD G. O. P. IN OHIO

The Platform Demands Reciprocity and Bigger Navy.

INDORSE M'KINLEY

First Plank Recognizes Right of Both Capital and Labor to Combine.

HANNA'S SLATE WINS

Columbus, O., June 25.—The republican state convention today re-nominated Governor Nash.

The platform adopted by the convention declares that there would be no prosperity if there were no republican party, no gold standard and no Dingley tariff. Reciprocity is boomed and a bigger navy demanded, legislation that will restore the merchant marine is asked. The trust plank recognizes the right of both labor and capital to combine, but combinations which create monopolies to control prices or production must be met by vigorous legislation.

The president's colonial policy is commended and Senator Foraker's Porto Rico bill endorsed.

Carl Nippert Hanna's candidate for lieutenant governor was nominated on the first ballot.

Senator Hanna now has undisputed control of the republican party machinery in Ohio. The new state committee, chosen by state delegates in congressional district meetings this morning, not only contains none of his foes, but at his belt are dangling the political scalps of two former governors and the man generally credited with being the anti-Hanna candidate for governor two years hence.

AN INJUNCTION AGAINST BOYCOTT

Court Commissioner Ryan of Milwaukee Issues Another Restraining Order to Machinists.

Milwaukee, Wis., June 25.—Court Commissioner Ryan last night issued an order for an injunction against the striking machinists. This one was obtained by the Bucyrus company in that it is directed against the boycott which it is claimed has been started against the union men at South Milwaukee.

It is claimed that the union men have threatened the storekeepers until they will not sell anything to the men the company has engaged to take the places of the strikers.

Another injunction will be secured today by the Flier-Stowell company. It is claimed by Business Agent Holmes and other leaders of the men that he injunctions are being secured for the purpose of aggravating the men to commit some overt act and thus get an excuse to call in the police.

CAILLES TROOPS TAKE THE OATH LEADER WEEPS AS THEY STACK ARMS

Filipino General and 650 Men of His Men Give Up at Vera Cruz—Ceremony of Surrender.

Manila, June 25.—The Filipino leader, General Cailles, surrendered today at Santa Cruz in Laguna province. With him were 650 of his men, who turned over to the American authorities 386 rifles and 4,000 rounds of ammunition.

The surrender was unique in its ceremonial features and was as impressive as it was unique. The American troops were drawn up on three sides of the courtyard of the Santa Cruz church, with six native bands in front.

General Cailles and his staff, at the head of the insurgent forces, marched to the courtyard and were drawn up in six lines facing the Americans. The insurgent general and his staff all in full uniform, with swords, entered the church, where Chaplain Hart of the Eight United States infantry celebrated a solemn mass.

Troops March in Review
The religious ceremony being over General Cailles marched his troops in review before General Sumner and his staff, the officers on each side giving the required salutes with military preciseness.

General Sumner and his aides then started to distribute certificates of \$30 each to the men who had surrendered rifles. General Cailles protested vigorously saying that the rifles were given up by his

men voluntarily and that he could not therefore, sell them to the Americans.

General Cailles Breaks Down
After he had spoken he broke down, weeping. Some of his officers and men also cried. Cailles' adjutant then collected the certificates and they were returned to General Sumner.

The insurgent leader then made a farewell address to his troops, in which he commanded them to adhere to the United States and uphold American institutions. When he had concluded he fainted from grief and heat.

Sumner Returns the Sword
When he had regained his composure General Cailles walked to the headquarters of General Sumner and tendered his sword in token of his surrender. General Sumner returned the insurgent's sword, an act of gallantry to a former foe that brought cheers from the surrendered men as well as from the Americans who witnessed it.

General Sumner also handed back the revolutionists' flag, which Cailles will personally present to General MacArthur. General Sumner congratulated Cailles on his surrender, and the latter responded that it was a happy day for Laguna province.

WEDDING OF EDWARD M. HYZER AND MARY CANTILLON IN ST. PAUL

News of the Marriage First Leaked Out in Milwaukee Last Night When the Newly Wedded Pair Reached Home—Well Known Here.

Miss Mary Cantillon and Edward M. Hyzer, both of Milwaukee, but for many years residents of this city, were joined in the bonds of matrimony at St. Paul last Sunday, Rev. J. H. Suames, pastor of one of St. Paul's Congregational churches, officiating. The wedding was a very quiet affair and news of it first leaked out last evening when the couple returned to Milwaukee.

Both bride and groom are widely known in this city. The bride has served as Mr. Hyzer's private secretary and stenographer for many years, both in this city and Milwaukee. She is a very attractive young woman with a happy disposition and a pleasing manner. Mr. Hyzer is one of the leading lawyers and most brilliant professional men of the state.

For many years he was the junior member of the law firm of Winans & Hyzer of this city, severing his connection with Mr. Winans to look after the interests of the Janesville Water company of which he was the secretary. He went to Milwaukee several years ago. Both bride and groom have many friends here who will extend their best wishes for Mr. and Mrs. Hyzer's future happiness. Concerning the marriage the Milwaukee Sentinel of this morning says:

"Edward M. Hyzer, attorney for the Chicago & Northwestern railway company, married Miss Mary Cantillon, who was for many years his stenographer, at St. Paul on Sunday. The announcement will be a surprise to the many friends of both Mr. Hyzer and his bride in this city as even the most intimate of them knew nothing of their intentions. Mr. and Mrs. Hyzer returned to Milwaukee last evening and are residing at their new home, 860 Hackett avenue. "Mr. Hyzer is well known in the legal fraternity of this city and throughout the state. He came from Janesville several years ago, and for a time was connected with the law firm of Fish, Cary, Upham and Black of this city. When John T. Fish died a few months ago Mr. Hyzer was appointed by the Northwestern railway to succeed him as attorney of the road. His office

tin moved that he council adjourn until Monday evening, July 1, at 8 o'clock.

New Street Car Rule
The custom of stopping the street cars at any point along the route will hereafter be discontinued on the Main street line. In order to make time Supt. Hurd has found it to be necessary to issue an order that the cars are to stop only in the center and at the corners of the block. Under the existing conditions a car would sometimes stop four or five times in going a block and it is to do away with this that the present order has been issued.

Various enjoyable games were played on the beautiful lawn surrounding the home and late in the afternoon tables, prettily decorated with flowers, were spread on the lawn and an elegant supper was served. When Walter Metcalf's guests bade him and his cousins good-night, they were tired, but very happy and the afternoon's enjoyment will long be remembered by all who shared in it.

There will be no call for money or subscriptions, but the opinion of all is wished, regarding the disposal of the building and grounds.

It is most urgent that there should be a full meeting. TWENTY YEARS IN THE PRIESTHOOD REV. FATHER GOEBEL CELEBRATES

Twenty years ago yesterday there was ordained into the priesthood of the Roman Catholic church at St. Francis seminary a man whose record has proved him a power in his chosen calling, Rev. Father A. Goebel, the beloved and faithful pastor of St. Mary's church. During his three years, pastorate here Father Goebel has won, not only the whole hearted love of his parish but the respect and esteem of the entire city and the sincere friendship of many people who are not of the Catholic faith.

After his ordination in 1881 he was appointed to his first mission at Kingston, Wis., where for two years he had charge of three churches. From Kingston he went to Ripon where he preached and served the people for fifteen years, coming at the end of that time to this city where, under his pastorate, St. Mary's church has flourished and prospered remarkably.

In thorough keeping with the character of a man who finds his truest pleasure in giving pleasure to others was Father Goebel's celebration of the twentieth anniversary of his ordination. He invited the members of the junior choir and the altar boys to spend the afternoon at his home and assisted by Miss Lillian Bourgmeyer he gave them a party which

they will long remember. There were various kinds of games for the amusement of the various sixty little people who responded to his invitation, lemonade and pop flowed like water and before the children bade their host good night at six o'clock they were feasted with ice cream, cake and fruit.

With the well wishes of the children and their hearty thanks for a pleasant afternoon still ringing in his ears, Father Goebel settled down for a quiet evening of meditation and study but about eight o'clock his peace was disturbed, not rudely but in a most welcome, though unexpected manner. Before he realized what was happening he found his home invaded by a company of about forty young people. Looking about in amaze he recognized the members of his church choir and the ushers with Prof. W. T. Thiele the choir director, as the ring leader. The evening which followed was one long to be remembered by all who participated in it. The uninvited guests brought a profusion of roses and other choice flowers which accompanied the congratulations with which they showed Father Goebel and later in the evening he was made the recipient of a handsome Morris chair, an enduring souvenir of the pleasant occasion and of the affection of last evening's guests. The evening was spent with music and pleasant conversation, tempting refreshments being served before good nights were said.

Whitewash Milwaukee Streets
Milwaukee, June 25.—Mayor Rose has sprung a new idea in connection with the plans for the Elks' carnival, the latter part of next month. The mayor proposes to whitewash the streets over which the ghost parade will march at the witching hour of 12. He holds that whitewashed pavements will add immensely to the decorative effect. He submitted his plan to the board of public works which says that it is feasible. The whitewash will be distributed over the asphalt from Eleventh to Jefferson street with a sprinkling cart, and all traffic barred from that street until the parade is over.

Too Warm for the Council
Although there were a number of important measures on hand for the council to tackle last evening the weather was too warm for them. The mayor did not put in an appearance and President Gilkey presided. Aids, Valentine, Judd, Gilkey and Hutchinson responded to roll call. There being no quorum present Ald. Valen-

Knights of St. John Meet.

Cincinnati, O., June 25.—Fifteen thousand uniformed knights of the Catholic Order of St. John have arrived here to attend their twenty-third annual convention, which began a four days' session. A number of belated delegations are still on the way, and it is expected that at least 25,000 will be in attendance. At the Odeon the knights were welcomed by Mayor Julius Fleischmann on behalf of the city and Archbishop Elder on behalf of the church.

Cubman Shot Dead.

Cincinnati, O., June 25.—John B. Lewis, who once studied for the ministry, but who of late has been engaged in the saloon business, killed Charlie, or Ross, Cunningham, a cubman, in front of his saloon, "The Flag," 415 Central avenue. Witnesses say Cunningham was shot while he was making an effort to escape, but Lewis says he shot in self-defense. Cunningham's friends tried to demolish the front part of the saloon and they were locked up.

A severe sprain will usually disable the injured person for three or four weeks. Many cases have occurred however, in which a cure has been effected in less than one week by applying Chamberlain's Pain Balm. For sale by People's Drug Co., and King's Pharmacy.

GET INSIDE.

Your Friends and Neighbors in Janesville, will show you how.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure Backache comes from the inside, from the kidneys.

Doan's Kidney Pills get inside.

Here is Janesville proof that this is so:

Veteran A. F. Lee, of 61 Sharon St., carpenter, says:

For twenty years it troubled me a great deal, many days I could hardly keep at my work, and by rights should have laid at home and doctored. It was seldom that my back did not ache, and I have been completely laid up for three or four days at a stretch. When stooping or lifting sharp pains penetrated the kidneys, the secretions from those organs were too frequent, and accompanied by heat. I used all kinds of remedies but none gave permanent relief. Obtaining Doan's Kidney Pills at the People's Drug Co., I took them, and after the first three or four doses a noticeable change was brought about. I improved steadily from then on and on completing the treatment I was in good condition and am now well.

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.

HE SEES PEACE IN CHINA.

Col. Riemann Says Troubles There Will Soon Be Adjusted.

San Francisco, Cal., June 25.—Chief of Staff Colonel F. Riemann of the German army in China, has arrived here on the steamer China en route to Germany. Col. Riemann occupies an important position with the allies.

In addition to being Count Von Walderssee's chief of staff and the personal representative of the German emperor at Von Walderssee's headquarters, he was charged with the duty of employing all of the allied forces that were placed under the command of German field marshal. He says he was disappointed because his military experience in China was very tame.

"The adjustment of all grievances between the foreign powers and China is now in a fair way to be accomplished," said Col. Riemann, but pending the final restoration of peace Germany finds it advisable to keep a considerable guard in the country.

Stone Thinks Bryan Sincere.

New York, June 25.—Ex-Gov. W. J. Stone of Missouri is now visiting his old campaign headquarters, the Hoffman house.

"Bryan," said he, "is sincere in his declaration not to be a candidate for a third nomination."

"How about the new third party movement in the west?" Mr. Stone was asked.

"I have nothing whatever to do with it. Neither has Mr. Bryan," he replied. "Silver Republicans, Populists, Municipal Ownership advocates and socialists made up its representation at the first meeting."

Two Drowned While Sailing.

The two girls clung to the boat about two hours and were in an exhausted condition from cold and fright when rescued by a fisherman.

If You Have Dandruff or Falling Hair

And then notice the exfoliation matter gathered under your finger nails. Is this cleanly? Or healthy? You surely would not think so if you were to look at it through a magnifying glass. This matter when highly magnified much resembles a working mass of insects; these creatures absorb the nutriment or the life-sap of the scalp, causing the scalp to become dry and feverish, resulting in the loss of hair and the accumulation of dandruff.

DANDERINE

works wonders in such cases. It thoroughly eradicates and removes all traces of scalp bacteria; it renders the scalp clean, fresh and wholesome; such scalps produce hair, and a satisfactory amount of it.

WISCONSIN WEATHER FORECAST
Continued warmer, generally fair
tonight and Wednesday.

DANGER AHEAD.

The wonderful development of
American industries and the success-
ful competition of our goods with
European make, have influenced
some large concerns to establish
branch factories abroad. The ad-
vantage gained by so doing is the
saving of trans-Atlantic freights.
While there is a saving in this re-
spect, there appears to be a serious
danger ahead of American interests.

Although these concerns are built
with our own capital, and are man-
aged by our own mechanics, yet the
raw material is purchased abroad,
and the cheap labor is obtained from
natives.
These two facts constitute the
greatest menace to home interests.
We are not benefitted one cent by
the purchase of their raw material,
and although the wages paid for
cheap, uneducated labor does not af-
fect us, yet these laborers are be-
coming educated every year, and as
the American workmen in Europe
die out these concerns are apt to
fill their places with foreigners who
are already there who have been
educated by contact with American
workmen and their methods.
Again, the wages paid abroad will
all be spent abroad, and so we can-
not see that America is receiving
any benefit from these industries, ex-
cept it be in dividends paid on in-
vestments, and we expect to see
large blocks of stock bought up by
foreigners from time to time, so
in time we will have the pleasure of
contemplating a purely foreign in-
dustry established by Americans on
American principles and fighting
industries of the same character in
America.
Our own success and greed will
finally be the cause of our own dis-
comfiture, and we will have only our-
selves to blame.

TARIFF REVISION.

The Association of American Man-
ufacturers at Detroit, have put them-
selves on record in favor of a re-
vision of the tariff schedule. Their
declaration that the object of tariff
legislation was the mere protection
of home industries, has always been
the strong republican argument. Of
course the trusts will fight any re-
duction in tariff as it would materi-
ally decrease prices and consequently
their profits.

We have failed to make satisfac-
tory reciprocity treaties because of
our tariff laws, and the opposition
to revision will probably be more
local than general. Of course, New
England and New York will be op-
posed to any change, while the
middle west is in favor of it.
The steel trust has given impetus
to the Babcock Bill, by selling its
products cheaper abroad than at
home, and that after paying trans-
portation.

This means that we are paying
more for our products at home than
is necessary in order to pay a fair
profit. Those monopolies that in
foreign markets undersell home mar-
kets ought to be discriminated
against in the proposed legislation.

Dr. Pearson's gifts to education
amount to less than those given by
Rockefeller or Carnegie, but com-
pared with his wealth, they amount
to more. But the widow leads all
in the art of giving.

The Russian has arrived in Chic-
go, and has discovered that either
that city was leading a very fast
life, or his old almanac was losing
time.

Rev. Jenkin Lloyd Jones does not
believe trusts are ethically right, but
advocates a trust in churches.
Hence churches are not ethically
right.

The Sunday question in New Jer-
sey seems to be simply a matter of
education, and not of legal compul-
sion.

to a number of her friends, Friday
evening, June 21, in honor of her
fifty-second birthday. Mr. Grimes,
of Newark, a brother, and his wife
were present.

Mr. Porter went to Watertown on
Sunday on business.

The people of this quiet little town
were awakened from their slumbers
on Monday morning about four
o'clock, by some one pounding
around the store. The first thought
was burglars, but come to find out
it was Mr. Barker the carpenter, and
Teho, building a carriage house.

Mrs. Wm. Atkinson visited at
Janesville over Sunday.

NORTH JOHNSTOWN.

North Johnstown, June 25.—Late
word from Emory Cary states that
he was in Denver, Colorado, over
Sunday.

Miss Lota Kenyon spent last week
with her sister, Mrs. Saxe of Lima.

Although the rain on Friday morn-
ing caused some disarrangement in
the plans for the school picnic,
yet the program was carried out
and a pleasant time enjoyed by all.
There was a good attendance and
the scholars did nicely. The pro-
gram for the day ended with a ball
game.

The pupils of the North Johnstown
school who were present everyday
during the term are Bertha Froh,
Minnie Froh, Edna Longfield. Not
tardy, Bertha Froh, Minnie Froh.

spending his vacation at home.

LEYDEN.

Leyden, June 25.—Tuesday's shower

was the heaviest of the season.

Most of the tobacco in this local-
ity is planted and the plants look
fair for such a cold, bad spring.
Other grain and farm produce are
commencing to grow better now as
the weather has been quite warm of
late.

Another car load of nice shingles
has arrived for Donkel & Shaw.

We think that by the end of ano-
ther week if the weather remains fair,
tobacco will be all transplanted.

Wm. Conroy has been examined
in Janesville for a position as block
operator. Mr. Conroy has only
been studying telegraphy about four
months. It is the best record any
one ever heard of being made in the
block system.

Night Operator Conrad Hanson
went to Brooklyn on the 6:15 a. m.
train Friday, returning on No. 4,
the same day.

Farmers around Leyden are all
hard at work and news is about as
scarce as frogs in Janesville.

Eugene Darby of Beloit was yes-
terday sentenced by Judge Piffel
to spend nine months in the county
jail for the theft of a harness and

Rapidly Increasing Practice

SINCE PROF. RIPKEN came to
Janesville he has made hundreds
of friends and his upright and
honest dealing enables him to
retain their trust and confidence. That
many residents of this city, as well as
the surrounding country, appreciate his
method of treating disease is shown by
the fact that he is busy nearly all the
time. His work speaks for itself and
patients whom he has cured are his best
recommendation.
Prof. Ripken is very successful in
treating nearly all diseases, whether
acute or chronic. He has studied Mag-
netic Healing for years, being a gradu-
ate of Germany as well as this country.

QUERY, WHERE IS HELEN FIFIELD?

STILL REMAINS UNANSWERED UP TO 4 O'CLOCK TODAY.

Stories That the Young Woman Had Been Located Run Down Without Any Foundation—Sam Warner Story Has No Basis in Fact—Other Rumors and Speculations.

The oft repeated question of where is Helen Fifield still remains unanswered. Up to this afternoon the parents of the lost girl state that they have no news of her whereabouts. Although there are numberless stories afloat that she has been located none of them can be run down to any reliable source.

Yesterday a telegram was received from Mantino, Ill., stating that a couple were detained there and asking for a description of Helen Fifield and Sam Warner. The description of Miss Fifield was at once sent, but no description of Warner being at hand it was not sent. Since that time no further word has been received by the family so it is thought the police must have been mistaken in the couple.

A telegram was also received from the Record-Herald last evening saying: "We have assurances that Miss Fifield has been located by private detectives, see if any news can be obtained in Janesville." This like all the rest of the reports is probably without foundation.

Dr. George Fifield returned from Chicago last evening and although he has searched industriously for her ever since he has been in Chicago and has found absolutely no trace of her since she left the Home hotel.

The identifications of Conductor Robbins, Parmley's transfer man, the cabman and the hotel keeper are almost identical. Dr. Fifield thinks that there is no question but that she took the early train to Chicago last Thursday morning.

Madison, Wis., June 25.—According to the police and the city directory no one named "Sam" Warner lives in this city. There are a number of Warners here but none of them are named "Sam." Paul S. Warner, the son of W. W. Warner, a prominent dealer in musical instruments, is acquainted with Helen Fifield, but says that he knows nothing about her mysterious disappearance.

FINE WEDDING AT ST. MARY'S CHURCH

Many Friends Assembled to Witness Marriage of Miss Nellie Pierce and Martin Joyce.

This morning at 9:30 o'clock at St. Mary's church there took place a very pretty church wedding, many friends being assembled to witness the marriage of Miss Nellie Pierce and Martin Joyce of Johnstown Center. The nuptial knot was tied by Rev. Father W. A. Goebel and exquisite music added to the beauty of the ceremony. Miss Tessie Gibbons presided at the organ and Miss Lillie Bourgmeier sang beautifully two solos, "Ave Maria" and "O Salutaris."

The bride was handsomely gowned in white organdie and was attended by her sister, Miss Julia Pierce who was dressed in pink.

The groom was attended by John O. Malley. Both bride and groom are estimable young people in whose happiness many friends are interested. The bride is a daughter of Andrew Pierce of Johnstown, but has made her home in this city for several years, having been employed at the Park Hotel. The groom is an enterprising farmer and he and his bride will make their home at Johnstown.

HE SECURED SPACE IN A TIME BOOK

Several Local Merchants Looking for a Man Who Sold Them "Valuable Space."

Some hold-up schemes are never too old to find investors. At least that is what an oily tongued stranger found last week when he secured several prominent business concerns in the city to use some "valuable space" in a time book, at a very moderate price. Some of these business people are now wondering where the man can be found. He promised to place 1,000 of these books in circulation among the railroad people, but it seems that only 100 copies were printed, and no one knows where they were circulated. This is only a fair sample of the many catch schemes that are continually being presented to business men and but few of them possess enough merit to offset one-half the amount asked for the investment. The most economical and the easiest method to secure publicity is through the newspaper. The announcement goes direct to the home, the best possible destination.

LUCIUS H. LEE IS HURT VERY BADLY

Collided With a Horse and Buggy On South Main Street—Horse Stepped On Him.

Lucius H. Lee of 206 South Division street met with a serious accident this morning while coming up South Main street on his bicycle. When opposite the Wood residence on Main street he collided with a horse driven by Miss Woodman of La Prairie, who was coming down the street on her way home from town. The shock threw Mr. Lee off of his wheel directly under Miss Woodman's horse. The horse, also frightened by the collision began to jump and plunge and before the bystanders could go to Mr. Lee's aid stepped on him a number of times. He was finally dragged from beneath the frightened horse and taken into Dr. Wood's office where his injuries were attended to.

Those who saw the accident say that it was a narrow escape for Mr. Lee and that his face was only kept from being cut to pieces by the horse being unshod.

SHOOT SISTER AND SELF

Teacher Murdered by Her Brother
in Boston.

SLAIN IN PUBLIC STREET.

The Murderer, Who Had Been a Student
at the Harvard Dental School,
Thought His Sister Opposed His Con-
tinuance at School.

Boston, Mass., June 25.—Richard Friedman, 25 years old, who had been attending Harvard Dental school, shot and killed his sister, Miss Rosa Friedman, aged 21, on Chambers street, and then committed suicide. Rosa Friedman, who had been a public school teacher, and her 17-year-old sister, Helen, were walking down Chambers street. Samuel Prince, a boy behind them, noticed the brother walking on the other side of the street, following the two girls.

He saw Friedman take a long 44-caliber revolver from his pocket and go through the operation of loading the five chambers. With the weapon exposed Friedman continued to walk toward the Ashland street corner. Just before the two girls reached the corner Friedman rushed across the street and attempted to get in front of his sisters. Both of the girls ran. Friedman discharged one shot, and both girls dropped to the sidewalk.

Hastily looking around Friedman turned the weapon upon his own breast and fired once. He examined his clothing hastily, seemed to think he had not succeeded in wounding himself, and fired again. An instant after he dropped to the sidewalk, dead.

An ambulance surgeon found that Helen was merely suffering from fright and she soon recovered. The other girl died on the way to the hospital.

Last Friday Richard met newspaper men and told them that he intended to commit suicide. They thought it a joke.

"Look here," said Friedman, "I came up here to seek your advice. I want to know whether, when I commit suicide, I should take my sister along with me."

He left a manuscript of eleven sheets of paper, which gave a brief history of himself and his sisters; also an account of his studies at the Harvard Dental college, and reasons why he thought his sister was against allowing him to continue at the dental school.

Thinks Gage Ill Informed.
London, June 25.—A dispatch to a news agency from St. Petersburg, purports to quote M. de Witte, the Russian finance minister, as saying that the statement issued by Secretary Gage, in explanation of the United States Treasury Department's action in imposing counter prevailing duties on certain Russian products, shows the question is not fully understood by Mr. Gage.

M. de Witte says he cannot imagine that Mr. Gage would intentionally mislead the people of the United States, and therefore can only conclude that Mr. Gage is not possessed of all the facts in the case.

Shout "Burn the Convents."
Madrid, June 25.—A meeting of free thinkers was held yesterday for the purpose of protesting against the holding of the jubilee procession. Violent anticlerical speeches were made and those present at the meeting afterward paraded the streets shouting "Burn the Convents!"

Everyone of the 6,000 bottles to be sold contains wine of high quality, and on some is the little round table bearing a crown with V. R. under it. The only reason for the sale is that King Edward doesn't drink anything weaker than whisky.

CLEVELAND FLYER WRECKED.

Passenger Train Plunges Over 25-Foot
Embankment Near Pittsburgh.

Pittsburg, Pa., June 25.—The Cleveland flyer was wrecked at Monaca, about three miles west of here, last evening. The fireman and the baggage-master were killed. Thirty persons were injured. The train, going fast, ran into an open switch and went over an embankment twenty-five feet high. Every car was turned over. Two of them went over twice. The cars were crowded. A corps of physicians was sent on a relief train. They expressed surprise at finding the fatalities so few. The fireman was pinned beneath the engine and crushed to death. The dead are: Lowry Black, baggage-master, Pittsburg; William J. Cunningham, fireman, McKees Rocks, Pa.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

Kodol

Digests what you Eat

Dyspepsia Cure

Dyspeptics cannot regain health and strength by living upon half rations. They must eat plenty of good food and digest it. To enable them to do this they should use something that will help the stomach do its work. KODOL DYSPEPSIA CURE is such a preparation. It digests what you eat and supplies the substances needed to build up the worn out digestive organs.

Prof. J. Iverson, of Lonaconing, Md., says: "For thirteen years I suffered agony from dyspepsia and neuralgia of the stomach. I tried almost everything and doctors drugged me nearly to death with morphine, but temporary relief was all I could obtain till I was advised to use KODOL DYSPEPSIA CURE. The first dose gave me relief. I bought my first bottle in March, 1900, and I have not had a single pain since. It has completely cured me. I cannot endorse it too highly."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1. bottle contains 2½ times the 50c. size.

POND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.
